SEASIDE

THE BEAUTY OF WATER, EVERY DAY. IN EVERY ROOM.

Teuco, the first beauty treatment for both you and your habitat.

Starting with Seaside, the project by Talocci design merging the concept of beauty and multi-sensory wellness, applying it gradually to the living environment, outdoors and the bathroom too.

A comprehensive range comprising not just simple products but genuine settings, microcosms of refined beauty which create an unexpected multi-sensory atmosphere.

A tactile and visual delight to dive into every day. In your favourite setting.

SEASIDE

THE LIVING ROOM

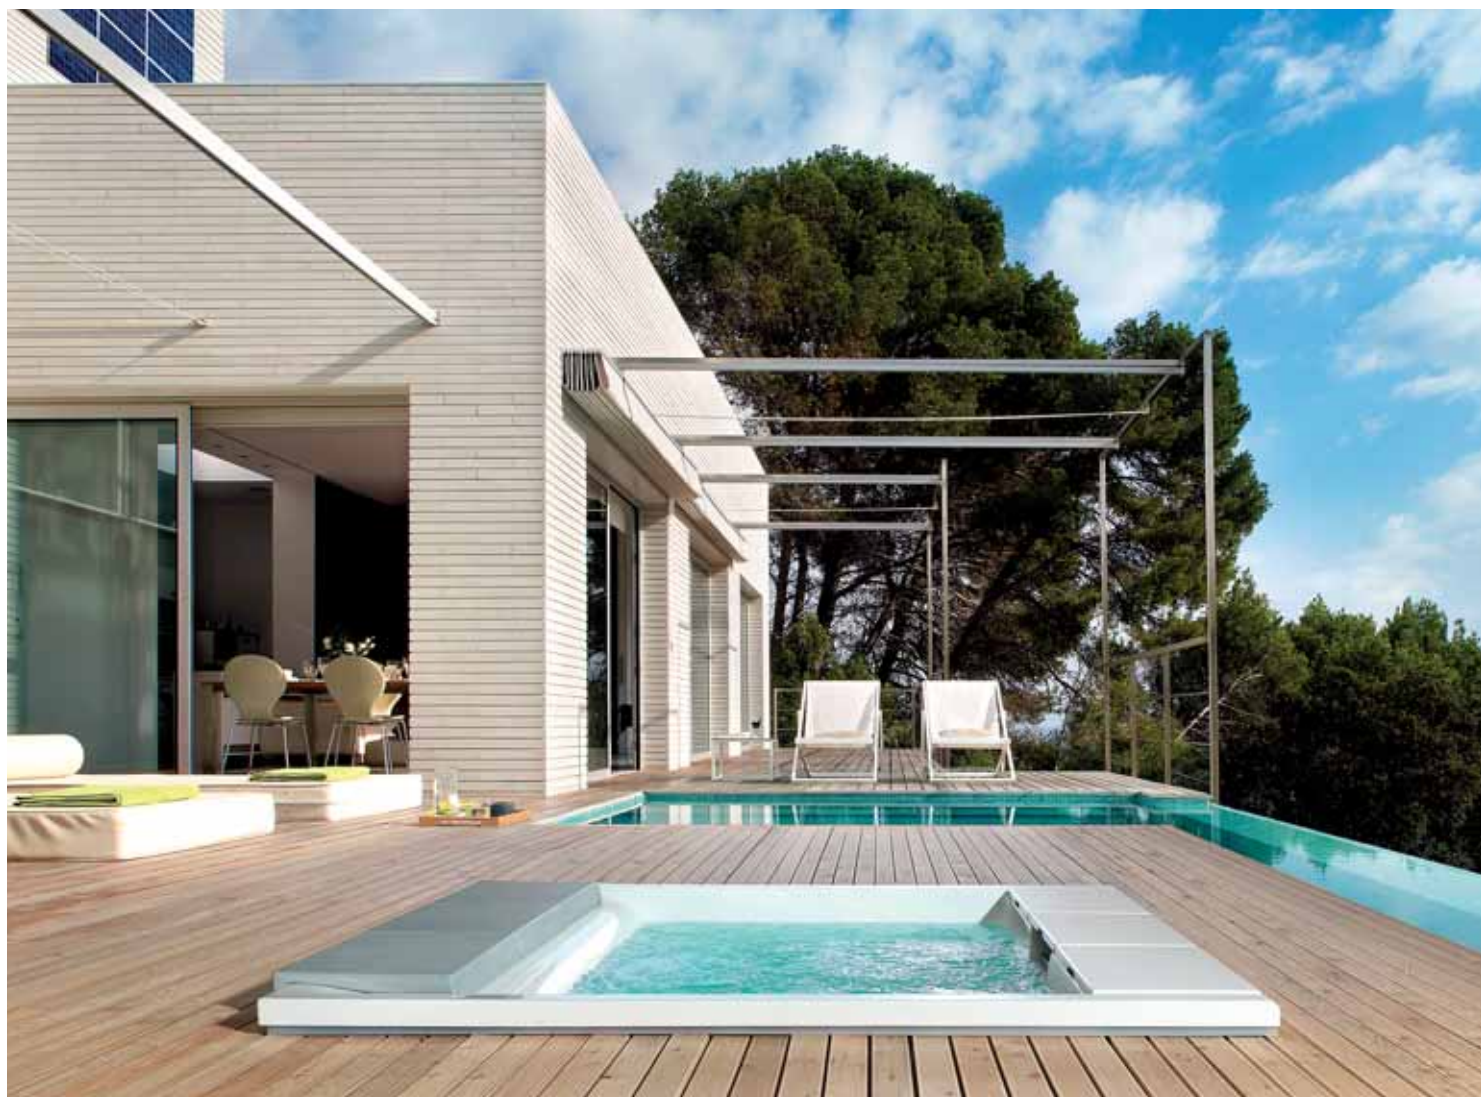

Seaside T07 for the living environment,
the greatest hit of the Seaside range.

A project designed to revolutionise the very concept of the bathtub, which "leaves" the bathroom and moves to the bedroom or living room.

Elegance and total comfort, to be experienced with company. Natural emotions with the bubbles created by 16 blower jets. Concealed lights, mood lighting, a waterfall, soft cushions to rest on and relax even when the tub is not in use, affording unique experiences at any time, even at night.

SEASIDE L'OUTDOOR

Hydrospa Seaside 640, mini-pool meets design:

the appeal of Seaside goes outdoors, to play the starring role in the garden, on a patio or in a veranda, or even on a terrace.

Seaside 640 creates a unique, multi-sensory atmosphere: flowing water, mood lighting and Chromoexperience, soft cushions, a mini bar and enchanting sounds, thanks to the audio system with an iPod socket.

An enjoyable experience to be had with company too, in the water or lying across the cushions along the tub ledge. Wellness for all hours:

Seaside 640 is the only mini-pool fitted with Hydrosilence, the quietest whirlpool ever, where only the pleasant sound of flowing water can be heard.

Hydrospa Seaside affords maximum comfort with the greatest of ease: indeed, the water is sanitised using a fully-automatic salt-based treatment, called AWT (Automatic Water Treatment).

Seaside was also devised with an eye to the environment and to consumption levels: indeed, to heat up the water, the heat exchanger can be linked up to solar panels, to save on energy.

SEASIDE THE BATHROOM

Since the bathroom is becoming a more significant part of a home's décor, with an increasingly stylish appeal, a special Seaside model just had to be designed for it. In a more compact version, to fit in any sized room.

Attractive design, maximum versatility of wellness functions, from the version without whirlpool system to the one fitted with a blower, and those with a Basic whirlpool and Hydrosilence, Teuco's exclusive super-silent whirlpool, where only the pleasant sound of flowing water can be heard. And also Hydrosonic, the patented whirlpool with the additional action of ultrasound, which guarantees unrivalled efficiency to stay in perfect shape; a small spa to be enjoyed in the comfort of your own home. In addition, there's the enjoyable atmosphere of Chromoexperience, which illuminates the water with the bright colours of the rainbow.

Seaside: the star of any setting. A regenerating and enjoyable experience, every day.
