SWISS DESIGN SINCE 1911

MAKE IT WONDERFUL **FRANKE**

CONTENTS

SWISS HERITAGE

Since 1911

Switzerland, a beautiful country with spectacular natural landscape and a rich history, is famous for its manufacturing excellence with uncompromising quality and design.

That's where our story began.

After pursuing detail, perfection and high quality for one century, we stand for reliable, premium products and have a strong reputation as dependable partner.

As a Swiss traditional brand with more than **100-year** history, we have expanded our business across **5** continents with **9,000** employees, owned **67** branches around **40** countries.

There are over 100 million households using Franke products.

OUR STORY

6 key milestones,

5 divisions,

1 successful story

Nowadays

Franke Group consists of five core business divisions: Franke Kitchen Systems, Franke Foodservice Systems, Franke Water Systems, and Franke Coffee Systems; Franke Kitchen Systems has become the world's leading provider of integrated kitchen system.

1911

Herman Franke established a sheet-metal business in Rorschach, Switzerland. In the early 1930s, Franke manufactured the first sink unit in nickeline, monel and later in stainless steel, and soon Franke started the series production and launched first fully welded, flush-mounted sink.

1946

Franke successfully exported to neighboring countries. Walter Franke drew up a model for the standardization of the private kitchen, which set kitchen technology standards still used today. In the following years, Franke kept further expansion to cover the whole Europe. Also, its business expanded from private kitchen to commercial kitchen, coffee machine and semi-/public washrooms.

1978

With the purchase of Progressive Corporation in Philadelphia USA, Franke took the first big step towards becoming a global company. During the next few years, Franke successfully continued to increase its footprint in the African markets.

1995

Franke entered China market, which was an important step of expanding business in Asia.

Since then, Franke has established efficient and economic manufacturing facilities all over the world. Franke consistently and successfully built the company into today's global Franke Group.

2005

Franke took over the Faber Group of Italy, one of the top hood manufacturers in the world. It has significantly strengthened Franke's capability of being an integrated kitchen system provider.

2013

Franke acquired the top class tap brand KWC in Switzerland, which raised our competitiveness in innovation and design. Meanwhile, it further enhanced Franke's high-end brand position and image.

INNOVATION IS IN OUR DNA

We have always been a passionate
innovator since our foundation.

OVERVIEW

Kitchen sinks that feel tailor-made

From classic style to modern you'll discover elegant design and exquisite craftsmanship without compromise. With Franke sinks, each detail is considered, right down to a patented integral ledge that helps make prepping and cleaning effortless.

Stainless Steel Sinks

Franke stainless steel sinks are made from premium quality 304 stainless chrome nickel steel. It is stunningly beautiful, and is highly stain, rust and corrosion resistant. What's more, it won't chip, craze, flake or break.

Franke offers sinks in a selection of stainless steel finishes, so whether you prefer the more reflective qualities of polished finishes, or the more subtle look of silk or brushed finishes, which give a more matt sheen, there is a stainless steel solution suited for you.

HIGHLIGHTS

Details that make the difference

Small details such as the annealing process for the material to be relieved, its forming history, or a highly innovative "fast-in" installation system make a huge difference. Whether it's to save you time, make cleaning easier, boost performance or simply provide an efficient solution for life's little challenges, every aspect of a Franke sink is carefully designed to make life easier.

FAST IN

Choosing your perfect sink

There are a number of considerations to take into account when choosing a sink. Not only should it accentuate the overall look and feel of your kitchen, but also there are installation and functionality aspects to take into account.

| 1.Material options	2.Installation Type*	3.Number of Bowls
		SINGLE BOWL
	INSET	Single bowl sinks come in a variety of sizes, ideal for limited space or large spaces.
STAINLESS STEEL	FLUSHMOUNT	
FRAGRANITE	UNDERMOUNT	**DOUBLE BOWL**
		Double bowl sinks offer great flexibility in the kitchen, providing more space, with additional options.

INSET

INSET the most popular installation option: practical and easy.

FLUSHMOUNT
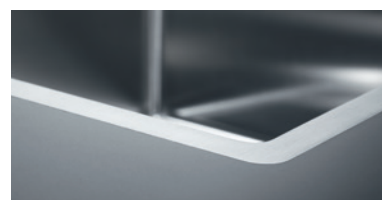

FLUSHMOUNT a sophisticated design that enhances the look of the worktop.

UNDERMOUNT

UNDERMOUNT an original, refined installation choice that allows bowls and sinks to be installed underneath marble or synthetic worktops, creating a surface with immaculate lines which is highly functional, elegant and easy to maintain.

4.Cabinet size

The length and depth of the cabinet, on top of which the sink will be located, are the factors that determine the maximum size of an installed sink.

5. Bowl depth

The normal bowl depth usually ranges from 7-9 inches. A deeper bowl can make it easier to handle large pots and cookware, but the user's height should also be considered. A shallower bowl may provide greater comfort while working in and reaching the bottom of the sink.

OVERVIEW

Taps worth talking about

The perfect kitchen tap combines form and function, making your life easier and your kitchen look more beautiful. Franke taps are a superior choice renowned for our extraordinary design, high quality components, and stringent manufacturing processes. With the acquisition of KWC Switzerland, Franke has gained a strong partner and increased expertise in high-end tap manufacturing and design.

Fragranite tap

For the perfect match with a
Fragranite sink, choose a
color tap, with its various colors,
all of which are compatible
with a Fragranite sink. The
Fragranite sink & tap set has the
look of a masterpiece - the
perfect partnership!

Stainless Steel tap

Stainless Steel as a base material
is durable and easy to maintain.
It is also lead free, making it
completely safe for your family.
One advantage of brushed stain
finishing is that it matches with
stainless steel sinks and
appliances.

HIGHLIGHTS

Design

Franke's line of kitchen taps perfectly captures all the elements of today's design choices – traditional, transitional, and contemporary. With everything from top flight European models with a sleek minimalist line, to sumptuous classic models that are the centerpiece to any kitchen, the addition of a Franke tap can reinvigorate an existing kitchen or make a statement all its own in a fresh design.

Manufacturing

Outstanding design and quality components come together beautifully during the Franke manufacturing process. Strict adherence to Franke manufacturing standards in forming, finishing and final assembly achieve the exceptional quality and durability that makes a Franke tap one of the most desired additions to a kitchen.

Brass tap

Brass is one of the most common materials in tap making, and brass taps can be found all around the world. Its material characteristics make it possible to create a wide range of tap shapes and styles. Chrome finishing provides a shiny look that fits perfectly with contemporary kitchen styles.

FRANKE KITCHEN TAP

An inspiration of beauty, the combination of form and function - Franke kitchen tap will make your life easier and your kitchen more beautiful.

Hygiene

Superior material with corrosion resistant and easy cleaning ability guarantees the passing water natural without harmful materials added.

Durability

Scratch and acid resistant features of high quality SUS304 stainless steel ensures our tap have a much longer lifecycle.

Functionality

Ceramic cartridge provides uniform temperature and water follow transmission as well as excellent water saving characteristics.
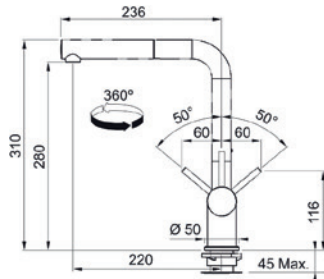

Design Award

Franke Pescara range of taps received iF Gold Award as well as Red Dot design award in 2017, thanks to its outstanding quality and cutting-edge design.
