94	Our Projects

Years of experience, yet still as curious as kids.

At Franke, we have been looking for new solutions and innovations for over 100 years and our attitude still has not changed. In 1911 we combined traditional craftsmanship, precision engineering and a constant pursuit of innovation, three principles that remain at our core.

A story forged in Swiss precision

Our story began at the beginning of the last century as a small sheet-metal business in Rorschach, Switzerland, established by Hermann Franke. Since then, we opened up to the world and inaugurated manufacturing facilities all around the globe that led us to become leaders in the kitchen sinks segment, and home solutions altogether.

“We believe that sustainability means fairness to future generations”

Shaping our future

Preserving the environment, shaping the future.

As a company conscious of our responsibilities, we think and act today in the interests of the world of tomorrow. We work hand in hand with our partners, customers and suppliers to create a liveable future where people can also thrive.

“We believe that sustainability means fairness to future generations” – this quote from Michael Pieper, owner of the Franke Group encapsulates our company ideals. We reconcile economics and ecology and make a proactive contribution towards sustainable development – with long-lasting products, recyclable materials and smart technologies. We use the global sustainable development goals and the United Nations Global Compact (UNGC) as a guide and framework on the path to a climate-neutral future.

Putting people at the heart of our sustainability

The foundation of our new sustainability strategy rests on the three pillars of the environment, employees and the company. When it comes to environment, we focus on the production and lifecycles of our products.

As the market leader, creating reliable and innovative solutions with real added value is both a challenge and a source of motivation.

This exceptional quality enables customers to use our products for more than two decades – conserving resources in the process. We also feel an immense responsibility towards our employees, of which there are approximately 8700 around the world. Words like appreciation and trust aren't just empty phrases to us, they're deeply embedded in our company's DNA. We help people to stay healthy and to make their professional aspirations a reality. Franke is synonymous with diversity, equal opportunities, cohesion and a company culture where people want to give their best and contribute their own ideas.

Good for everyone!

Good for our partners and customers.

Good for the planet. Good work.

We believe that sustainability means planning ahead.

We see environmental action as an opportunity and this attitude is also reflected in Franke's products.

Less plastic and better taste

Plastic bottles have a particularly stark effect on the environment – around the world, over 1500 bottles end up in the sea every second. In our vital filter tap, the capsule filter combines activated carbon and a high-tech membrane to reliably remove bacteria, viruses, microplastic, rust, medication residues and hormones. Customers are therefore guaranteed clean drinking water which is equally good for their health and the environment.

Saving water has never been so easy

Another star in Franke's range of products is the Atlas Neo Sensor. This innovative technology allows you to switch the water flow off and back on again even when your hands are covered with soap – in a completely touch-free system. This saves around three litres of water every time you wash your hands and keeps the tap spotless. The sensor will switch off automatically after 30 seconds. Needless to say, you can still operate the tap manually.

Clean air for maximum energy efficiency

Our extractor hobs offer maximum energy efficiency. For example, the extremely powerful Mythos 2gether extractor hob is classed in the best possible energy efficiency rating A+++ thanks to its innovative and brushless motor.

FRANKE

HOME SOLUTIONS

Solutions that work together

Our kitchens are places to live: we cook there, eat there, spend time together there, more often than not all at the same time. We thoroughly observed the movements we make in our kitchens and developed proper home solutions rather than simple appliances. Our single products all merge together in functional systems aimed to facilitate your life and please your eye thanks to perfectly matching colours, designs and combinations. When everything comes together, it is easier to enjoy every moment.

Food preparation areas

Taps, sinks and waste management systems.

Award-winning, smart, eco-friendly taps perfectly completed by elegant, spacious bowls that can be equipped with accessories or other smart tools so you have everything you need, always at hand. Everything in the best, most durable and hygienic materials, for example stainless steel or our exclusive Fragranite.

Hoods

Wall, ceiling, built-in, island hoods.

Every kitchen has specific needs, so we created a range of hoods able to surprise you with technology, efficiency, lighting and beautiful designs. Discover the available colours, shapes and special technologies from built-in screens to air-purifying systems.

Appliances

Ovens, microwaves, hobs, refrigerators and dishwashers.

When we design our appliances, we do so with your routines in mind, so that we can offer functional solutions that are easy to use, smart in their features and beautiful to look at.

Inspirations

There is no place like home. And there are no two homes alike. The way we cherish our own nest is just as unique as we are, each one with different tastes, preferences, and needs. To help you get inspired and create the kitchen environment of your dreams, and enjoy it every day, we developed three different **families** of products.

Mythos

A passion for the best

Our most premium range. Technology meets design, while even the smallest details are carefully sought-after. This family sets its goal to the highest levels, combining the very essence of functionality with that of beauty.

Maris

Family in the kitchen

A family inspired by families. Cosy and functional, for savouring the heartwarming experience of a family get-together. Maris' philosophy is simple: welcome anyone, anytime with the pride and joy of a homemade dinner.

Smart

Straight to what matters

The simplest things work the best. Essential in its perfection, to jump to what matters the most: bringing joy to your kitchen. A family created to fulfill any need and preference.

What will your kitchen look like it's up to you, but whatever your way of bringing joy home, you can count on us.

Mythos

Show what you're made of!

Shiny or matte; smooth or stone-like, extra-strong or super trendy. Your kitchen can speak volumes about you, so every detail counts. To offer you the chance to create your very own perfect kitchen, our range of materials is designed to please any taste, match any style and resist any endeavor. Discover each material's precision-engineered character and unique benefits to choose the one that suits your needs the best and you like the most.

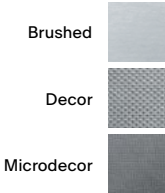

Fraganite

An exceptionally tough material, highly resistant to burns, dents, chips and stains. Pioneered by Franke, it's a unique material with a subtle sheen that is warm to the touch thanks to its 80% of granite. Also, Fraganite treated with Sanitized® reduces bacteria and microbe growth by 99%. A more than relevant feature for our kitchens, as bacteria can multiply every 20 minutes making the kitchen's surfaces highly unhygienic.

F-Inox Technology

An exclusive Franke coating able to group water molecules and allowing you to dry your sink without ring stains. Water repellent and scratch-resistant, this futuristic coating also fears no heat up to 350°. A real and long-lasting beauty formula that you can appreciate from our Masterpiece family.

Stainless Steel

Whether you prefer the more reflective qualities of the polished finish or the more subtle look of the silk or brushed finishes, which give a more matt sheen, there is a Stainless Steel solution for you. Any Franke Stainless Steel product is made from premium quality chrome nickel steel, which looks stunning and is highly resistant to staining, rust and corrosion - plus it won't chip, craze, flake, or break. If Stainless Steel is one of the most popular materials in the kitchen, it's for good reason.

PVD Coating

PVD, standing for 'Physical Vapor Deposition', is a coating technology that makes tapware even more resistant to abrasions, scratches and corrosion and offers exceptional aesthetic features as well. A tap treated with a PDV coating even resists UV rays and makes fingerprints less visible in a busy kitchen. Available in different finishes, with chrome remaining the most popular, there are now an array of other stunning finishes to choose from. From solid stainless steel, which combines beauty with durability, brass and gunmetal to Industrial Black, Copper and Gold, you really can find something to suit every style of kitchen.

Innovation is our DNA

We have always been passionate innovators since our beginnings.

Red Dot Award 2022

A modern kitchen sink with a black tray. The sink is set into a light-colored countertop. A chrome faucet is positioned behind the tray. Various kitchen items are arranged around the sink, including a wooden cutting board, a grater, a pepper mill, a salt mill, a small clock, and several heads of broccoli. Two small toy cars, one red and one orange, are on the counter in the foreground.

Kitchen Sinks That Feel Tailor-Made

Our range covers everything, from the new trends to traditional favourites. All you have to do is pick the one that best complements your cooking style, your lifestyle and your personal style.

Superbly hard-wearing, sinks made of granite are particularly elegant and bring a natural look into your kitchen.

Our processed granite has a subtle shine and feels warm to the touch. The surface is finely textured but not porous, ensuring a high standard of hygiene. Composed of 80% quartz sand and 20% very hard acrylic resin, Franke's hard-wearing granite gives you a lifetime of beauty.

Franke stainless steel sinks are made from premium quality 304 stainless chrome nickel steel. Stunningly beautiful, highly resistant to stains, rust and corrosion - plus, it won't chip, craze, flake or break.

Franke offers sinks in a selection of stainless steel finishes, so whether you prefer the more reflective qualities of a polished finish or the subtle matt sheen of a silk or brushed finish, there's a stainless steel solution for you.

Highlights

Details that make the difference

Small details such as minute material processes, its forming history, or a innovative “fast-in” installation system make a huge difference in the finished product. Whether it’s to save you time, make cleaning easier, boost performance or simply provide an efficient solution for life’s little challenges, every aspect of a Franke sink is carefully designed to make life more seamless.

Choosing Your Perfect Sink

There are a number of considerations to take into account when choosing a sink. Not only how it’ll accentuate the overall look and feel of your kitchen, but also how well its installation and functionality work for your lifestyle.

1. Material Options

- STAINLESS STEEL
- FRAGRANITE

2. Installation Type*

- INSET
- FLUSHMOUNT
- UNDERMOUNT

3. Number of Bowls

- **SINGLE BOWL**
Single bowl sinks come in a variety of sizes, ideal for limited space or large spaces.
- **DOUBLE BOWL**
Double bowl sinks offer great flexibility in the kitchen, providing more space, with additional options.

4. Cabinet size

The length and depth of the cabinet, on top of which the sink will be located, are the factors that determine the maximum size of an installed sink.

5. Bowl depth

A deeper bowl can make it easier to handle large pots and cookware, but the user’s height should also be considered. A shallower bowl may provide greater comfort while working in and reaching the bottom of the sink.

Installation Type*

 **INSET** the most popular installation option: practical and easy.

 **FLUSHMOUNT** a sophisticated design that enhances the look of the worktop.

 **UNDERMOUNT** an original, refined installation choice that allows bowls and sinks to be installed underneath marble or synthetic worktops, creating a surface with immaculate lines which is highly functional, elegant and easy to maintain.

Fragranite Sink

Durable and versatile, Fraganite offers a host of practical and aesthetic benefits. The surface's rich colour won't stain, mark or fade over time. Plus, having been heated up to 280°C, the material superbly hard-wearing, making it impact and scratch resistant – perfect for busy family homes. What's more, our Fraganite's Sanitized® coating reduces bacteria and microbe growth by 99%, helping keep your sink hygienic and clean.

The silver ion locates the bacteria via the moisture and deactivates it.

Stainless Steel Sink

Franke offers a selection of stainless steel finishes made from 304 stainless chrome nickel steel. So, whether you prefer the more reflective qualities of a polished finish, or the subtle matt sheen of a silk or brushed finish, there's a stainless steel solution for you.

Accessories

A seamless supplement to your sink

Turn your sink into a multi-functional work station with the addition of clever accessories that combine function and technology. From items that aid a hygienic kitchen, to those that make preparation a joy, you'll find accessories that surprise and delight, such as the lightboard that fits exactly over the bowl of the sink and acts as an ambient cover.

The Best-Selling Roller Mat

A Franke classic that's not only useful and versatile, but also adds an elegant look to your sink.

Wooden Chopping Board

Our Chopping Board fits your sink perfectly, sitting securely over the bowl. Allowing you to maximise workspace and transform your sink into a multi-purpose workstation.

The Neat Strainer Bowl

A beautiful strainer bowl that simply fits. The anti-scratch frame glides perfectly on the edge of the sink: move it to where you need it.

Wire Basket

The Wire Basket is indispensable to hygienically dry your crockery and utensils. Designed to sit firmly on your drainer to balance your dishes firmly and securely so you air dry with confidence.

Taps

Overview

Taps Worth Talking About

The perfect kitchen tap combines form and function, making your life easier and your kitchen renowned for design, quality components, and rigorous manufacturing processes. With the acquisition of Switzerland, Franke has gained a strong partner and increased expertise in high-end tap manufacturing and design.

Highlights

Kitchen taps designed to the finest standards

Explore endless shape, line and contour possibilities to make an ordinary kitchen something special. The Franke tap range provides your kitchen with a focal point – and in some cases, a talking point. Featuring cutting edge design and a whole host of innovative features to enhance your lifestyle – from filtered cold water, to instant boiling water - the range spans the entire spectrum of form and function.

Design

Franke's line of kitchen taps perfectly captures all the elements of today's design choices – traditional, transitional, and contemporary. With everything from top flight European models with a sleek minimalist line, to classic models that are the centerpiece to any kitchen, the addition of a Franke tap can reinvigorate an existing kitchen or make a statement all its own in a fresh design.

Manufacturing

Outstanding design and quality components come together beautifully in the our manufacturing process. Strict adherence to Franke manufacturing standards in forming, finishing and final assembly achieve the exceptional quality and durability that makes a Franke tap one of the most desired additions to a kitchen.

Hygiene

Superior materials with corrosion resistant and easy-cleaning features guarantee that no harmful materials enter the taps' flow of water.

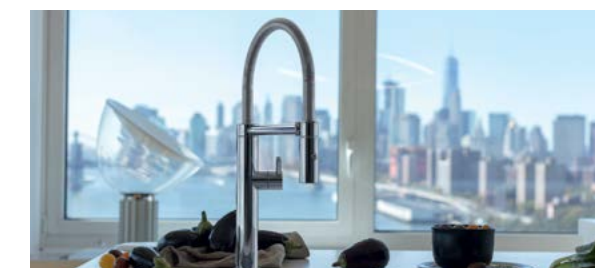

Durability

Scratch and acid resistant features of high quality SUS304 stainless steel ensures our tap have a much longer lifecycle.

Functionality

Ceramic cartridges provide uniform temperature and water flow transmissions, as well as superior water-saving capabilities.

Design Award

Thanks to its outstanding quality and cutting-edge design, the Franke Pescara range of taps has received the 2017 iF Gold Award and the Red Dot design award.

Filtration

Overview

Kitchen Sinks That Feel Tailor-Made

Everyone has a different vision of what would make their kitchen wonderful, and that often begins with how they intend to use it. The demands on your sink will dictate which material is right for your kitchen, as each precision-engineered material has individual character and unique benefits.

Our range covers everything, from the new trends to traditional favourites. All you have to do is pick the one that best complements your cooking style, your lifestyle and your personal style.

Fragranite

Superbly hard-wearing, sinks made of granite are particularly elegant and bring a natural look into your kitchen.

Our processed granite has a subtle shine and feels warm to the touch. The surface is finely textured but not porous, ensuring a high standard of hygiene. Composed of 80% quartz sand and 20% very hard acrylic resin, Franke's hard-wearing granite gives you a lifetime of beauty.

Stainless Steel

Franke stainless steel sinks are made from premium quality 304 stainless chrome nickel steel. Stunningly beautiful, highly resistant to stains, rust and corrosion - plus, it won't chip, craze, flake or break.

Franke offers sinks in a selection of stainless steel finishes, so whether you prefer the more reflective qualities of a polished finish or the subtle matt sheen of a silk or brushed finish, there's a stainless steel solution for you.

Food Waste Disposer

Overview

More Choice, More Space

A food waste disposer unit can be a wonderful, long-lasting addition to any kitchen if proper care is taken.

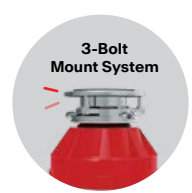

Food waste disposer units are designed to deal with small amounts of organic waste: fruit and vegetable peels, small bones from fish and chicken, coffee grounds, pips and seeds, nutshells, eggshells, rice and leftover meat. To prevent any problems, avoid putting teabags, seafood shells, corn cobs, banana skins, pineapple leaves or metal, glass, plastic and paper down the unit. Plus, to keep things smelling clean and fresh, don't use drain cleaner – instead, squirt a few drops of lemon juice.

2,600 -
2,800RPM

Torque Talk

- Permanent magnet motor
- Torque master grinding system

3-Bolt
Mount System

Magnetic Magic

- Energy saving
- Less is more

Here to stay

- 3-bolt mount system
- Corrosion resistance

Clean Slate

- Bio Shield
- Removeable splashguards

Highlights

A greener, simpler and quieter choice

Less is More

Quickly shred and pulp food waste material into small pieces that are then flushed down the drain at a 2700RPM motor speed. This process releases water trapped inside the food material (which can form up to 85% of its bulk), thereby helping to reduce the volume of food waste released from your home.

Health and Hygiene

Food waste in the kitchen is not only messy and inconvenient, but can also lead to hygiene problems. Fish, meat and dairy products can spoil quickly, resulting in a plethora of germs and insects – particularly in a warm environment. A Turbo Elite series food waste disposer is the simple, convenient and hygienic answer.

Safety Comes First

Equipped with complete features and systems for safe use, our Turbo Elite series food waste disposer ensures full functionality for a less wasteful home without any worry over safety or accidents.

Clean & Care

Overview

General maintenance is wonderfully simple Increase the lifespan of your Franke products and prevent the buildup of dirt and limescale by simply wiping down your sink and all stainless steel surfaces with a damp cloth and soapy water. This simple tip will keep your products looking great. Discover more top cleaning tips below.

Colored Sink Cleaner (250ml)

Cleaning a colored mineral cast sink is like washing a car. In order to keep it clean you have to make sure the water drops roll off the surface without leaving lime scale deposits. This is exactly what the specialised Franke Kitchen Care Colored Sink Cleaner does. It removes dirt deposits and protects your sink effectively from water stains.

 **ITALY**

Model
Colored Sink Cleaner (250ml)
Suitable for daily maintenance
Suggested Retail Price
\$230

Stainless Steel Sink Cleaner (200ml)

Commercial detergents often affect stainless steel. After a while, the sink becomes dull and the glaze is damaged. The new Franke Kitchen Care Stainless Steel Sink Cleaner instead is acid-free and includes polishing compounds which ensure sustainable and gentle cleaning. Applied regularly with the Franke Kitchen Care Microfiber Care Cloth, it ensures your sink will always look as good as new.

Tap Cleaner (250ml)

When looking at a shiny tap, one tends to forget all the technology and mechanics tucked inside. There are valves, cartridges, seals, and filters that might get harmed if you use an aggressive cleaner. The Franke Kitchen Care Tap Cleaner removes all lime scale and dirt gently but thoroughly, thus preserving the beauty and performance of your tap for years.

Microfiber Care Cloth

The best toothpaste is even more effective when applied with the best toothbrush. The same goes for the Franke Kitchen Care detergents. When combined with the Franke Kitchen Care Microfiber Care Cloth, each of them is more effective and more protective than with any other cloth or sponge. Thanks to its unique structure, the fibre used in it absorbs even the smallest dirt particles while smoothly polishing the surface. Washable at up to 60°C and suitable for tumble drying, the cloth can be used over and over again to keep your kitchen clean and shiny.

WARRANTY TERMS

The warranty for manufacturing defects on this FRANKE device is 3 years from the date of purchase (Faucet cartridge is 5 years from the date of purchase). The customer must inform FRANKE about all faults within 2 months of determination. FRANKE must always be provided with the proof of purchase stating the vendor/retailer, purchase date and product identification number.

- The manufacturer’s warranty is only granted under the following conditions:
- The device is only used in a private household.
 - The device was connected as per the manufacturer’s instructions and all essential energy regulations were complied with when connecting as per the supplied operating instructions.
 - The device is only used in line with the instructions in the operating instructions.
 - All repairs are implemented by an authorised FRANKE customer service centre and FRANKE spare parts were used.
 - The model or serial number on the product was not changed, deleted, removed or otherwise made illegible.

During the warranty period FRANKE will either repair or replace defective parts for the customer free of charge.

FRANKE has the right to replace the defective device with one of the same value if defects occur repeatedly or if the repair costs bear no relationship to the value of the goods.

There is no right to repairing or replacing the device beyond the warranty period of 1 year.

EXCLUSION CLAUSES

- This FRANKE warranty does not cover repair or spare part costs arising for the following reasons:
- The operating or maintenance instructions from the manual provided were not met.
 - The device was operated in a negligent or grossly negligent manner.
 - The maintenance or repair was undertaken by an unauthorised person or the customer and/or no original spare parts were used.
 - Due to transport damage or damage arising from force majeure and/

- or events that cannot be specified as manufacturing defects on the device.
- Parts that can be removed, handles, light bulbs, enamel or glass parts, external tubes and all components and wear parts are not covered by this warranty unless it can be proven that they have manufacturing defects.
 - Damage to the product caused by the installer and operating faults caused by incorrect installation.
 - Defects on the systems and fittings with which the device was linked.
- This is why the customer has to provide full payment for any service call and spare parts if requesting an authorised employee from the customer service centre in these cases.

EXTENT OF AREA

This warranty is guaranteed by FRANKE in the area of the stated country by the customer service network.

Devices sold or used in other countries are covered by the warranty of the FRANKE Group company in the respective country.

MANUFACTURER’S LIABILITY RESTRICTIONS

FRANKE does not accept any liability whatsoever for damage to people, property or animals created directly or indirectly as a result of not complying with the instructions in the operating manual, in particular with regard to the installation, operation and maintenance of the device.

EXPIRY OF THE WARRANTY

After the end of the 3 years warranty period, all service calls to customer services for a repair or replacement of components must be paid for in full by the customer, as per the price lists of the authorised FRANKE customer service. In the event that a defective product is repaired or replaced, the warranty applies to the repaired or new product only for the same time as the original warranty on the product.

- If you want to contact FRANKE for a service call, please provide the purchase receipt and the following information:
- Model / serial / product no.
- You will find this information on the device’s nameplate.
- Date of purchase
